# SUPRA AG INTERNATIONAL SUPRA SWEET SILAGE

## High-Brix Sweet Sorghum for Maximum Energy Value

This is a high yielding, cold and drought tolerant, sweet sorghum hybrid that has some of the highest recorded sugar levels. These high Brix levels make it very palatable and increase its energy value. A high leaf to stem ratio with juicy sweet stalks enhances the desirability of this excellent forage product.

**Silage yield potential of up to 48 wet tons/acre.** This hybrid allows growers to increase profitability due to higher yields, earlier planting and less water requirements per season, compared to competing sorghum crops.

## Premium Agronomic Performance

Harvest Height:	10' - 12'+
Days to Harvest:	100 - 115 days
Superior Regrowth:	Excellent
Plant Type:	Sweet and Palatable
Min/Max pH:	6.0 - 8.5
Standability:	Excellent
Sugar Cane Aphid:	No

## Versatile Crop Performance

Flexible Growing:	Dryland & Irrigated
Double Crop Ready:	Boot Stage Cutting
Silage Yield Potential:	48 Ton/Acre @ 71% Moisture
Premium Nutrition:	Excellent crude protein, NDFD & TDN Values
Efficient Fertilizer:	1-1/4 lbs N per growing day/acre
Herbicides:	Atrazine, 2-4D, Dual Magnum*, Prowl

\*Safener required for Dual Magnum

## Simple Seeding Success

Seeds Per Pound +/- 17,300  
Soil Temperature: 58°F (14°C)  
Seeding Depth: 1"  
Row Spacing: 12" - 36"  
Seeding Rate: 6 - 7 lbs

*Easy planting specifications for  
consistent reliable results*

## Superior Plant Traits

- No-till Drill to support regenerative farming practices
- Seedless variety produces higher nutritive yields
- Extremely leafy with less stalk
- High quality, palatability and digestibility
- Tolerant of high temperatures and humidity
- Can be planted early, at the same time as corn
- Lower water requirements than corn
